Dear Jan:

I just wanted to drop you a note to thank you again for your assistance in my recent court case in the Circuit Court of Monongalia County, West Virginia.

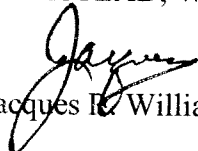

Your consultation even before I decided to retain you was very helpful in helping me better focus on the issues that needed to be resolved. I especially appreciated your thorough search for crash videos that powerfully illustrated what happens in a rear-end collision, in a way that words alone cannot do. At trial, your testimony was thorough and lucid. I could tell that you had a good rapport with the jury.

I intend to incorporate your expertise into more of my cases as I really believe that your perspective on the dynamics and mechanics of soft tissue injury is much more compelling and persuasive than the dry, run-of-the-mill biomechanical testimony one usually encounters on these issues.

I will be in touch again when the next suitable case develops. With best wishes, I remain

Very truly yours,
